'Out of Our Senses' - Sensational Science!

Finding out about flavour is the aim of this session, we explore the reasons why we like some food and drinks, but not others. We will even make sherbet to help investigate what makes our drinks fizz and more acidic.

'GO WITH MY GUT'

Follow food down into the belly as we enter the guts and digest the inner workings of our body from dinner plate to toilet bowl. Find out how the body gets as much as we can by eating and what waste we leave behind.

'SNOTTY SCIENCE'

The body is under attack from dangerous germs and we must protect it! Find out about this seasons must have mucus and how it protects us from the dangerous invaders all around us. Just in case, take some extra home with you as well.

'I CAN'T BELIEVE MY EYES'

Seeing is not always believing! We open our eyes to the wonderful world of optics and the workings of the brain. We will see how our brain plays tricks on us to see things are not really there!

'SHOW ME THE LIGHT'

Become illuminated as we split apart light into rainbows. Discover how light travels and how it can be used every day. Discover invisible messages that are hidden in plain sight to help keep us all safe.
