

ACCESSIBILITY PLAN 2021 - 2024

Ilsham C of E Academy

1. Aims

Academies are required under the Equality Act 2010 to have an accessibility plan. The purpose of the plan is to:

- Increase the extent to which disabled pupils can participate in the curriculum.
- Improved the physical environment of the academies to enable disabled pupils to take better advantage of education, benefits, facilities and services provided.
- Improve the availability of accessible information to disabled pupils.

The Trust aims to treat all its pupils fairly and with respect. This involves providing access and opportunities for all pupils without discrimination of any kind.

The Academy plan will be made available online on the academy website, and paper copies are available upon request.

The Trust is also committed to ensuring staff are trained in equality issues with reference to the Equality Act 2010, including understanding disability issues.

The Trust supports any available partnerships to develop and implement the plan.

Trustees are accountable for ensuring the implementation, review and reporting on progress of the Accessibility Plan over a prescribed period.

The Trust recognises that regular and reliable data is essential if the Trust and Academy is to know and understand the needs of its pupils, parents, staff and trustees and to be able to monitor progress against its Action Plan.

An Accessibility Audit will be completed by the academy to inform the development of a new Accessibility Plan for the ongoing period.

The Head of Academy will monitor the Action Plan on behalf of the Academy and liaise with the Trust Executive Team who report to the Board of Trustees.

This plan reflects statutory requirements for the setting of Equality Objectives.

Our complaints procedure covers the accessibility plan. If you have any concerns relating to accessibility, this procedure sets out the process for raising these concerns.

We have included a range of stakeholders in the development of this accessibility plan.

2. Legislation and guidance

This document meets the requirements of schedule 10 of the Equality Act 2010 and the Department for Education (DfE) guidance for schools on the Equality Act 2010.

The Equality Act 2010 defines an individual as disabled if he or she has a physical or mental impairment that has a “substantial” and “long-term” adverse effect on this or her ability to undertake normal day to day activities.

Under the Special Educational Needs and Disability (SEND) Code of Practice “long-term” is defined as “a year or more” and “substantial” is defined as “more than minor or trivial”. The definition includes sensory impairments such as those affecting sight or hearing, and long-term health conditions such as asthma, diabetes, epilepsy and cancer.

Academies are required to make “reasonable adjustments” for pupils with disabilities under the Equality Act 2010, to alleviate any substantial disadvantage that a disabled pupil faces in comparison with non-disabled pupils. This can include, for example, the provision of an auxiliary aid or adjustments to premises.

This Accessibility Plan complies with our funding agreement and Articles of Association.

Appendix 4

Access Statement:

Arrangements for physically disabled persons using Ilsham Church of England Academy.

This appendix to the school accessibility plan is designed to outline a solution for the difficult issues faced by physically disabled persons using the premises of Ilsham Church of England Academy, due to its challenging topographical position and historic layout.

Although the academy currently has no pupils in attendance with any physical disabilities nor any pupil that requires physical support whilst manoeuvring around the school site, we recognise that this could change at any point and have therefore put in place plans that would enable the school to accept any such pupil, should the situation arise.

Wheelchair users have access to the premises via the side gate from the lane. For emergency purposes, wheelchair users are able to exit the grounds with assistance via either of the gates from the garden area.

The Dining room and office facility within the premises of the school are fully compliant with DDA regulations and therefore accessible for all wheelchair users.

The main entrance of the school is also accessible for wheelchair users which allows access to the office space and staffroom.

Should a current pupil of the academy become temporarily incapacitated, the academy would look to put measures in place whereby the pupil would safely be taxied in and out of the main school building, whereby once within the main building the pupil would be able to attend their 'usual' learning environment and classroom.

Should the situation arise whereby either an existing pupil of the school were to become permanently physically disabled, or a physically disabled pupil were to join the academy, then the following procedure would come into place:

The current regime whereby the school pupils rotate to different classrooms on an annual basis as they progress through their school life, and specific classrooms/buildings are used for a specific age range of pupil would no longer take place.

In essence, if a permanently, physically disabled child were to become a long term pupil of the academy then that pupil, along with their year group of pupils, would be taught within the dining room building which would provide all the facilities required including toilet and learning space.

In the event that an employee of the academy were to become either temporarily or permanently physically disabled, then the same conditions would apply as above, in that the academy would utilise the accessible building for this person, should they be a teacher, teaching support staff or admin. The academy are confident that this would be achieved with very little changes due to both the high level of training received by our employees in being able to adapt to teach the full spectrum of primary aged pupils, and the integration of our IT systems throughout the premises.

Finally, where possible, any visits to the premises by a physically disabled person, whether this be a parent, an official (ie OFSTED Inspector) or a general visitor would be planned in advance, allowing for plans to be made for the meeting to be held within the main school.
